

Vanguard Series - VG10

All-Weather Outdoor Multi-Tech Smart Readers

- Designed for Advanced Security
- Supports Over 100 RFID Credential Types
- Optional Touch Keypad / QR Code Scanner

Slim Design & Modern Design

The VG10 reader is a cutting-edge device designed with a slim profile and tailored for mullion mount installation. This sleek design is well-suited for most architectural and narrow doorframes, providing an unobtrusive and seamless integration. The VG10 reader boasts a durable enclosure infused with a tempered glass panel, ensuring sturdiness and elegance in one package. Its modern and refined aesthetics allow it to seamlessly blend into any environment, making it the ideal choice for various usage scenarios. The VG10CKQ model features a metal enclosure, while the VG10CKQ-P model utilizes high quality plastic for durable and reliable performance.

LED Programmability: Unlocking Enhanced Flexibility and Interactive Experiences (Coming Soon)

Experience limitless possibilities with our customizable programmed LED lights, offering an extensive range of colors and display styles for diverse scenarios. Ideal for businesses, these programmable LEDs create an interactive and immersive experience for any occasion. With open, high-level customization options, embark on a journey of unparalleled interactivity, unlocking the full potential of LED lights to elevate your interactive experiences to new heights.

Unrivaled Strength, Durability, and Aesthetics

The VG10 series features robust construction using high-quality materials that outperform in strength and durability. The VG10CKQ model utilizes a stainless steel/aluminium casing that provides exceptional corrosion and oxidation resistance, making it perfect for challenging environments, including coastal regions, medical facilities, food processing plants, and chemical factories. The VG10CKQ-P model features high quality plastic casing, offering durable and reliable performance suited to various installations. Moreover, the construction adds a touch of contemporary elegance, elevating the product with a premium aesthetic. Experience the seamless fusion of structural performance and upscale style.

Advanced Security

At Armatura, our dedicated design team ensures the Vanguard Series exceeds the highest security expectations.

Compact RFID Reader with Touch Keypad

The VG10 is a compact and versatile multi-tech RFID solution. With support for 100+ RFID card types, mobile NFC, and Bluetooth (Low Energy), it adapts seamlessly to diverse installation environments. Additionally, its embedded touch keypad offers users the flexibility to opt for password authentication, catering to individual preferences.

Multi-tech Card & Mobile Credentials

Experience unmatched versatility with our VG10. Supporting over 100 RFID card types, including optional modules offering more than 10 secure RFID protocols. With seamless integration of Armatura mobile credentials via Bluetooth, our solution caters to a wide array of user needs, providing high flexibility for multi-card scenarios.

Designed for Advanced Security

The VG10 series reader uses VERIFIED OSDP (v2.2 Secure Channel) over RS-485 communication, offering protection against interleaving and replay attacks through AES-128 encryption. For mobile (NFC (Android OS Only) / Bluetooth) and reader communication, AES256 encryption standards are strictly adhered to, further enhancing the level of data security.

Secured Data Storage: Certified EAL6+ encryption

Advanced encryption elevates data protection to the highest security level.

Protection Against SPA/ DPA/ EMA/ DEMA Attacks

Protects against external malicious attacks and safeguards all communication and client data.

Superior Protection Level

Certified with Water & Dustproof ratings, our readers are designed to withstand dust, dirt, and rain, ensuring reliable performance in challenging environments. Additionally, with a certified Vandal-proof rating, they offer enhanced protection against tampering and vandalism. The VG10CKQ model features IP66 and IK07 ratings, while the VG10CKQ-P model features IP65 and IK04 ratings.

Versatile Mobile Identification with Vanguard Series Readers and Armatura ID Mobile App

Card Mode

Present your smartphone to the reader like an access card

Remote Mode

Verify on the reader by clicking a button in the Armatura ID app

QR Code Mode

Present your QR Code and get access

Key Features

Mobile Credential Capability

The Armatura ID mobile app offers a consistent user experience across iOS and Android platforms. Open doors by presenting your smartphone to the reader or scanning a QR code. Use your phone's Face & TouchID functions for even more secure authentication. It supports both NFC (Android OS Only) and Bluetooth communication methods, extending mobile access functions to almost all smartphone users. Additionally, the -RNI versions of the VG10CKQ, VG10CKQ-A, and VG10CKQ-P models support Apple Wallet and Google Wallet as mobile credentials, enabling seamless integration with these popular digital wallet platforms for enhanced convenience and security.

Compact Design with Touch Keypad & QR Code Scanner Options

Experience seamless compatibility with mullion mount installation, ideal for various architectural settings. Enjoy the flexibility of a touch keypad for password authentication, along with a QR code scanner for recognizing static and dynamic QR codes on all models.

Enhanced Security

Ensure secure communication with the support of VERIFIED OSDP (Open Supervised Device Protocol) between control panels and readers. Advanced data protection is achieved through certified crypto chips with EAL6+ certification. AES128 end-to-end encryption guarantees that all communications between the control panel and reader remain fully secure.

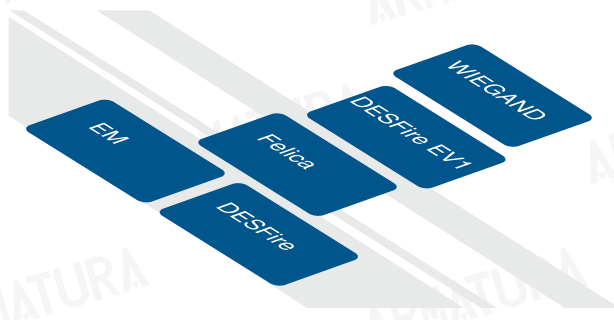

Ultimate Protection

With Vandal-proof and Water & Dustproof protection, the VG10 series is designed to operate efficiently in any installation environment. The Vandal-proof level enhances its ability to withstand malicious physical attacks, ensuring robust security. The VG10CKQ model offers IP66 and IK07 protection, while the VG10CKQ-P model offers IP65 and IK04 protection.

Multi-Tech Credential Reading Supported

Supports 125 kHz, 13.56 MHz, and 2.4 GHz frequency credentials. Supports 100+ card types, covering most of the common card formats in the market.

Key Features

Compact RFID Reader with Touch Keypad

Enhanced flexibility with embedded touch keypad for user authentication.

Invisible Keypad Mode

The VG10CKQ and VG10CKQ-P models offer enhanced discretion with Invisible Keypad Mode. Using the Armatura Connect mobile configuration app, administrators can easily turn off the touch keypad and all associated lighting, rendering the keypad completely invisible. This provides a sleek, unobtrusive appearance when password authentication is not required, while preserving full

Specifications				
Internal Number	VG10CKQ		VG10CKQ-A	VG10CKQ-P
Communications & Panel Connection	Wiegand, Verified OSDP (V2.2) via RS-485 (Up to 128bits SCP Secure Communication)			
Reading Distance	13.56MHz & 125kHz: Up to 2.3"/60 mm (depending on environment and transponder) Up to 393.7"/10m with a Bluetooth Smartphone (configurable distances on each reader)			
Data Protection	AES128 (Secured Communication between Reader & Controller) Secure Data Storage in EAL6+ Certified Crypto Chip			
Visual Indicator	RGB LEDs (Configurable By 'Armatura Connect' Mobile APP)			
Audio Indicator	Internal buzzer with adjustable intensity (Configurable By 'Armatura Connect' Mobile APP)			
Power Requirement/ Power Supply	9 VDC to 24 VDC (Below 0 degrees, the reader needs separate power supply. Above 0 degrees, a single reader requires a minimum of 2.4W power. Below 0 degrees, a single reader requires a minimum of 8W power)			
Operating Temperature	-4°F - 122°F /-20°C-50°C			
Reader Dimensions	4.78" H x 1.77" W x 0.96" D (121.5 x 45 x 24.5mm)		4.78" H x 1.77" W x 1.0" D (121.5 x 45 x 25.5mm)	
Backplate Dimensions	5.56" H x 3.50" W x 0.41" D (141.3 x 88.8 x 10.5mm)			
Tamper Switch	Magnetic tamper detection system			
Certifications	CE, FCC, RoHS3.0, WEEE, UL294, IEC EN/ BS EN 60839 Grade 4			
Mounting	Mullion-mount or flat surface; universal backplate compatible with Asian Gang, European Gang, Single-Gang boxes			
Protection / Resistance	Weather & Dust Proof Protection Rating compliant with IP66 Reinforced Vandal-proof Structure IK07 certified Casing Material: Satinless Steel		Weather & Dust Proof Protection Rating compliant with IP66 Reinforced Vandal-proof Structure IK07 certified Casing Material: Aluminium Casing Material: High-quality Palistic	
Remarks	***Standard version provides "Read only" function. Customization is required for "Read & Write" function. **VG10CKQ[SFM] is equipped with the same QR module as the VG10CKQ-P *This product includes software developed by the OpenSSL Project for use in the OpenSSL Toolkit (http://www.openssl.org/) QR scanning performance was tested in a laboratory environment, and the luminance was recorded as 250 Lux.
